About IRT

Welcome to Information Resources & Technology

Our primary role in Information Resources & Technology is to deliver secure, timely, accurate and effective service to Rowan University’s students, faculty and staff. My personal commitment is to support the University’s educational policy, strategic planning and organizational change while encouraging innovation, improving customer service and reducing costs.

Emerging technologies, security threats and a growing demand for information technology services create many opportunities and challenges. We are committed to providing great services to the University community, alumni, our business constituencies, affiliates and general education community.

We have played an essential role in connecting our three campuses into an integrated system, which has provided critical clinical and academic services throughout the University. Please explore the wealth of information on our website to learn more about our organization, the technology and services available to you and current projects and initiatives. You will also find valuable reference links.

We welcome all feedback. Please email us at irt@rowan.edu to let us know how we can better serve you.

Dr. Mira Lalovic-Hand
Senior Vice President and
Chief Information Officer
Information Resources & Technology

About Us

Information Resources & Technology is responsible for all technology services available on the Glassboro, Camden and Stratford campuses of Rowan University. We support the University’s network, email systems, data centers, telephones, technology for classrooms and research and Blackboard learning management system and provide hardware and software support for students, faculty and staff.

In addition to managing the University’s data governance and reporting, we also operate a unique virtual reality laboratory for wide-ranging research projects across the University.

Please explore this website to answer questions you may have regarding technology services.
