IRT News

Updates from IRT

Information Resources & Technology aims to enhance the overall learning experience for the University's students, assist in the research of the University's faculty and enable the University's staff to perform their duties effectively and efficiently.

Here, IRT will update the University community on initiatives, projects and services that further those objectives, as well provide information regarding technology-related news, enhancements and additions on campus.

RowanSecure connection issue
O'Neill, Erin E. posted on Oct 30, 2017

Information Resources & Technology has learned of an issue requiring some students to re-authenticate to RowanSecure on the Glassboro campus. Students who are encountering this issue are able to successfully connect to RowanSecure on one part of campus but are prompted to connect again repeatedly when they move to another part of campus. We are currently working with our vendors to find a permanent resolution to this problem, and we expect to have the issue fixed soon. Until then,…

Updates to Google Drive: New desktop application and Team Drives
O'Neill, Erin E. posted on Oct 30, 2017

Rowan University faculty, staff and students now have access to two new features from Google Drive: Team Drives and Drive File Stream. You can create shared files that belong to a group, rather than just one individual, using Team Drives. Drive File Stream is a new desktop application that provides fast and easy access to all of your Google Drive files, directly from your computer. This new application is replacing the Google Drive client for Mac/PC. Team Drives With Team Drives,…

Update on deployment of new network firewalls
O'Neill, Erin E. posted on Oct 29, 2017

Information Resources & Technology successfully completed the deployment of new network firewall devices this weekend. We will continue to closely monitor the network this evening and throughout the week to identify and respond to any potential issues. An after-hours hotline is now open to help us quickly address any network-related support requests. The number for that hotline is 856-256-6466.…
Internet outage due to network update on Saturday, Oct. 28

O'Neill, Erin E. posted on Oct 23, 2017

As part of the ongoing network redesign project, Information Resources & Technology is planning to install new network firewall devices this weekend. This work will cause a network outage on Saturday, Oct. 28, from 2 p.m. to 4 p.m. During that time frame, internet service will not be available through Rowan University’s network on any campus and users will not be able to remotely access network resources through the University’s VPN. Following the deployment of these new devices,…

IRT's new Training and Instructional Support department

O'Neill, Erin E. posted on Oct 18, 2017

In order to realign our resources to more effectively provide training to the University community and manage access to major applications like Blackboard and Qualtrics, Information Resources & Technology has established a new department called Training & Instructional Support. This department will oversee the following services: Training Blackboard management Qualtrics management Kaltura Media Visit the Training & Instructional Support page https://irt.rowan.…

Major hardware upgrade strengthens Banner system

O'Neill, Erin E. posted on Oct 04, 2017

Information Resources & Technology has recently implemented significant improvements to the system that supports Banner in order to deliver a better experience to the thousands of students, faculty and staff who use that platform on a daily basis. The most noteworthy improvement that we made is the installation of more powerful hardware. With double the amount of memory and nearly four times the number of processor cores, the new hardware is far more powerful than our previous setup.…

Banner outage due to emergency maintenance on Sunday, Oct. 1

O'Neill, Erin E. posted on Sep 29, 2017

Information Resources & Technology will be performing emergency maintenance on the database that supports Banner on Sunday, Oct. 1, beginning at 11 p.m. This work is expected to be finished by 2 a.m. Banner will not be available during that time frame. This maintenance is necessary to address issues users are experiencing with administrative forms. Please contact the Technology Support Center at 856-256-4400 or support@rowan.edu mailto:support@rowan.edu with any questions or concerns.

Internet outage due to network update on Tuesday, Oct. 3
O'Neill, Erin E. posted on Sep 27, 2017

Information Resources & Technology will be reconfiguring the connection to the University’s internet service provider during the evening of Tuesday, Oct. 3. This work will cause a 30-minute internet outage beginning at 11 p.m. Students, faculty and staff will not be able to access the internet through our network during that 30-minute outage window. This outage will affect all campuses. This work, which is part of the ongoing network redesign project,…

Do not update to macOS High Sierra yet, Rowan University
O'Neill, Erin E. posted on Sep 25, 2017

The new Mac operating system, macOS High Sierra, that was released on Monday, Sept. 25, is not compatible with certain applications and services that provide access to the Rowan Network. Please do not install macOS High Sierra on your laptop or desktop computer until Information Resources & Technology certifies that our systems are able to support the new operating system. If you update your computer, you may be prevented from accessing the Rowan Network.…

How to protect your data after Equifax breach
O'Neill, Erin E. posted on Sep 20, 2017

A massive breach at Equifax, one of the nation's three major credit reporting agencies, potentially exposed the Social Security numbers, birth dates and other sensitive data of roughly 143 million Americans. If you have a credit report, your personal information may be at risk. While no Rowan University data was involved in this breach, our team wants to ensure that you take steps to determine whether your personal information may be compromised and respond appropriately….
Windows/Office upgrade planned for classrooms, labs in 2018
O'Neill, Erin E. posted on Sep 19, 2017

Information Resources & Technology will be installing a new operating system on Windows computers in technology enhanced classrooms and computer labs on the Glassboro campus and in the Camden bank building starting in the summer of 2018. In addition to the upgrade to Windows 10, we will also be equipping those computers with Office 2016. Please consider this upcoming change when planning for the fall 2018 semester.

Upgrade to cause Banner outage on Friday night
O'Neill, Erin E. posted on Sep 18, 2017

Information Resources & Technology will be upgrading the hardware that supports the Banner system beginning at 9 p.m. on Friday, Sept. 22. This scheduled work is expected to be finished by Saturday, Sept. 23, at 3 a.m. Banner will not be available during that time frame. Please contact the Technology Support Center at 856-256-4400 or support@rowan.edu with any questions or concerns.

RESOLVED: WiFi issues on Glassboro campus
O'Neill, Erin E. posted on Sep 18, 2017

Sept. 18, 2017 at 3:08 p.m. We have resolved the issues affecting WiFi access in the following locations: Holly Pointe, Edgewood Park Apartments, Townhouses, Evergreen, 6 High Street, 232 Victoria, Rowan Hall, Engineering Hall, Business Hall and the Enterprise Center. Please contact the Technology Support Center at support@rowan.edu or 856-256-4400 if you experience any additional issues. Sept. 18, 2017 at 12:49 p.m.

Network equipment to be installed this weekend
O'Neill, Erin E. posted on Sep 13, 2017

Information Resources & Technology will be connecting new equipment to the University's network this weekend as part of our ongoing network redesign project https://confluence.rowan.edu/x/WUEpB. This work will begin at 11 p.m. on Saturday, Sept. 16. We expect to be finished by 1 a.m. on Sunday, Sept. 17. We will be disconnecting and reconnecting the fiber links that run between the University's Glassboro, Camden and Stratford campuses during that two-hour window.

The latest edition of Information Resources & Technology's newsletter takes a look back at some of our highlights from the last year, including equipping new academic buildings with state-of-the-art technology https://confluence.rowan.edu/x/unKpAw, launching a new service management platform https://confluence.rowan.edu/x/1yApB and deploying a new streaming TV service for students https://confluence.rowan.edu/display/IRT/Cable+TV#CableTV-online....

Emergency phone maintenance on Sept. 2
O'Neill, Erin E. posted on Sep 02, 2017

Information Resources & Technology will be performing required maintenance on the University’s phone system in order to address ongoing issues with dropped calls. This work will start at 4 p.m. today and is expected to be finished by Sunday, Sept. 3, at 8 p.m. We do not expect this upgrade to cause a total phone outage on any campus, but service may be affected throughout the maintenance period as servers are rebooted. We thank you for your patience as we complete this necessary work.

Do you need to update your Banner bookmarks?
O'Neill, Erin E. posted on Aug 31, 2017

Information Resources & Technology will be taking down a server that has been used to support Banner applications on Friday, Sept. 8. That change may require some employees and students to update the bookmarks they use to access Banner. If you have bookmarked a link to Banner that begins with adminweb.rowan.edu, please delete or update that bookmark. The vast majority of students and employees only access Self Service Banner....

Need IRT support? Click new desktop icon
O'Neill, Erin E. posted on Aug 28, 2017

Do you need to request help with an application, device or system that isn't working properly? Or do you want to search for a solution to a common technology problem? Information Resources & Technology has provided employees using Rowan owned and managed computers with a new desktop support icon that’ll help you get the information and resources you need in just a few clicks. requestsupport.png http://support.rowan....
RESOLVED: Visitor wireless network outage
O'Neill, Erin E. posted on Aug 17, 2017

Update: Aug. 21, 2017 The outage of the visitor wireless network for Rowan University has been resolved. Guests may now log into Rowan_Visitor_Wireless to get online. Original Message: Aug. 17, 2017 The visitor wireless network for Rowan University is currently not available. This outage is due to a contractor cutting a fiber optic cable during a renovation at Glassboro High School. The internet connection used for the University's visitor wireless network is shared with the high school.…

System performance issues during week of Aug. 7
O'Neill, Erin E. posted on Aug 10, 2017

Information Resources & Technology is aware of intermittent performance issues that some employees have been experiencing this week with multiple applications and services, including Exchange email and Citrix. We have been working with our vendor to address these issues, and we will be performing ongoing maintenance on our storage system in order to completely resolve the underlying problem. This work is scheduled to begin on Friday, August 11, at 9 p.m.…

Network, phone system tests scheduled from July 29 to Aug. 4
O'Neill, Erin E. posted on Jul 27, 2017

Information Resources & Technology will be conducting several tests on the University's network and phone system over the next week to ensure those services continue to operate in the event of a partial network failure. We do not expect these tests to cause major service interruptions for the University's three campuses or clinical offices. We will be closely monitoring each system during these tests, and we should be able to restore services within 15 minutes if problems occur. On Saturday,…

TV system maintenance scheduled for July 28
O'Neill, Erin E. posted on Jul 27, 2017

The vendor that manages the cable TV and https://confluence.rowan.edu/x/D22pAwstreaming TV service https://confluence.rowan.edu/x/D22pAw for Rowan University has network maintenance scheduled for Friday, July 28, beginning at 12:01 a.m. The work is expected to take six hours to complete. While this maintenance is underway, users may experience a service interruption of up to five minutes. Please contact the Apogee support team https://www.myresnet.com/support, which is available 24/7,…
UPDATE: New network equipment to be installed next week

O'Neill, Erin E. posted on Jul 21, 2017

Update: August 4, 2017 Following the successful testing of the University’s network resiliency this week, Information Resources & Technology is moving forward with the installation of new equipment as part of the network redesign project. This work will begin on Tuesday, August 8, at 11 p.m. and is expected to be finished by Friday, August 11, at 11 p.m. Over those three days,…

System maintenance to affect Banner on July 28

O'Neill, Erin E. posted on Jul 20, 2017

Information Resources & Technology will be installing security updates for the database that supports Banner beginning at 9 p.m. on Friday, July 28. This work is scheduled to be finished by 3 a.m. on Saturday, July 29. Banner may be intermittently unavailable during that time frame. We will notify the University via email when this work is complete. Please contact the Technology Support Center at 856-256-4400 or support@rowan.edu with any questions or concerns.

Network upgrades planned in 2017

O'Neill, Erin E. posted on Jul 18, 2017

Information Resources & Technology is working to provide the University with a faster, more secure network that is designed to serve a growing population, handle an ever-increasing amount of data and safeguard the University against security threats. We will be rolling out more than 40 initiatives as part of a network redesign project, and many of the major upgrades will be finished by the end of the year.…

IRT rolling out new Rowan University login page

O'Neill, Erin E. posted on Jun 29, 2017
As part of our ongoing efforts to improve the security and accessibility of our services, Information Resources & Technology will be performing updates to our single sign-on system over the next several weeks. During this upgrade, the login screen for many University resources will change. Before entering your Rowan Network account credentials on any unfamiliar login page, please verify the site looks similar to one of the images below: OLD LOGIN SCREEN  NEW LOGIN SCREEN

System maintenance to cause Banner outage on July 7

O'Neill, Erin E. posted on Jun 23, 2017

Information Resources & Technology will be performing maintenance on the Oracle system that supports Banner on Friday, July 7, beginning at 8:30 p.m. Banner will not be available while this work is underway. Services that directly rely on Oracle or Banner, including id.rowan.edu http://id.rowan.edu, will also be offline until the maintenance is complete. We do not expect this work to affect other systems or services, but additional interruptions are possible.

Update on investigation into Banner issues during fall 2017 registration

O'Neill, Erin E. posted on Jun 15, 2017

On three separate days this spring students attempting to register for fall 2017 courses were unable to do so at their scheduled times due to technical problems with a University system. Information Resources & Technology worked around the clock to resolve the underlying issues and ultimately configured the system to function normally when registration opened for sophomores. The problems seniors and juniors faced while trying to enroll in classes, however, were not acceptable.

It's now even easier for visitors to get online at Rowan University

O'Neill, Erin E. posted on Jun 15, 2017

Information Resources & Technology has made getting online even easier for guests of Rowan University https://confluence.rowan.edu/display/IRT/Wireless+Visitor+Access. You may have noticed that our new visitor wireless network no longer requires guests to register using their email address and phone number. Now prospective students and their families, event attendees, alumni, vendors and other guests of the University can access our wireless service in a few simple steps.

Introducing the Information Resources & Technology support portal
Gangloff, Christine D. posted on May 15, 2017

Information Resources & Technology is excited to introduce students, staff and faculty to our new service management platform, which includes a new, user-friendly support portal. When you need assistance with technology issues, please visit support.rowan.edu https://support.rowan.edu/ to access the support portal and submit a request for help. You may also email support@rowan.edu or call 856-256-4400 for assistance. Portal Highlights The new portal at support.rowan....

Register now for Academic Technology Week 2017
O'Neill, Erin E. posted on May 04, 2017

Screen Shot 2017-05-04 at 9.20.04 AM.png Academic Technology Week is a free, four-day conference for Rowan University faculty and staff that focuses on technologies for teaching and learning. This year's conference — co-sponsored by the Faculty Center for Excellence in Teaching and Learning http://www.rowan.edu/provost/facultycenter/ — is set to take place from May 22 to May 25. This nearly week-long event is packed with information sessions, demonstrations and hands-on training....

ALERT: Phishing attack targets Gmail users
Gangloff, Christine D. posted on May 03, 2017

A sophisticated phishing scam was sent to Gmail users today, including many Rowan student Gmail accounts, seeking to gain control of the user’s entire email history and spread itself to all of their contacts. This email arrives in users' inboxes posing as an email from a trusted contact and asks you to open an attached "Google Docs" file. Clicking on the link takes you to your real Google security profile....

ALERT: Job offer scams targeting Rowan community
Gangloff, Christine D. posted on Apr 28, 2017

Recently, emails have been sent to members of the Rowan community from various addresses with subjects of "BOOKS OFFER" and "Student Opportunity" (among others), claiming to offer a job with "Bertram Books" or "being an intermediary between our suppliers and our agents" that pays around $300 a week. These messages are part of a malicious scam....

IRT now installing Windows 10 on Rowan-owned computers
O'Neill, Erin E. posted on Apr 26, 2017

Information Resources & Technology has started installing Windows 10 on new University-owned computers and laptops and older machines that require updating. IRT was previously only updating touch-screen devices with the new Windows operating system. No immediate action by employees is required because of this change, which only applies to faculty and staff on the Glassboro campus. Employees who bring a University-owned computer to the Technology Assistance Center https://confluence.rowan....

Infrastructure maintenance will affect access to some services this weekend

O’Neill, Erin E. posted on Apr 20, 2017

Information Resources & Technology will be performing infrastructure maintenance on Friday, April 21, and Saturday, April 22, that will affect access to some network services and applications. IRT will be installing security updates for the database that supports Banner from 9 p.m. to midnight on Friday. Banner may be intermittently unavailable during that time frame. From noon to 8 p.m. on Saturday, IRT will be upgrading the University’s Domain Name Systems. While this work is underway,…
