VI. POLICY

1. As per the Destruction of Public Records Act of 1953 (P.L. 1953, c. 410), public agencies must receive prior written authorization to dispose of their public records, regardless of the medium in which the information is maintained. Rowan University, as a public agency, is required to follow this act, and must obtain approval to destroy all applicable records.
2. The Bureau of Records Management places all public records on Records Retention Schedules that list the minimum legal and fiscal time periods they must be retained by state and local governmental and educational agencies. Working with personnel from the records-creating agency, the Bureau determines these retention periods in conformance with state and federal codes, regulations, and statutes of limitation. Final approval of the schedules comes from the State Records Committee, which is comprised of representatives of the Attorney General, State Treasurer, State Auditor, Director of Local Government Services, and the Secretary of State.
3. No public records shall be destroyed without official approval from the New Jersey Division of Revenue and Enterprise Services (DORES) – Records Management Services (RMS).
