I. PURPOSE

Animals/pets are not permitted in Rowan University's campuses buildings, except in certain limited circumstances such as Service Animals, Emotional Support Animals, Shreiber Family Pet Therapy Programs and vivariums. This policy provides the procedures for the use of Service Animals by students and employees; and Emotional Support Animals by students, on Rowan University's campuses. This policy may be amended from time to time as circumstances require.

Rowan University complies with the Americans with Disabilities Act ("ADA") in allowing the use of Service Animals for students, staff and visitors. In addition, Rowan University complies with the Fair Housing Act ("FHA") in allowing students the use of Emotional Support Animals in housing, when they are an approved accommodation.

II. ACCOUNTABILITY

At the direction of the Associate Vice President for Student Affairs and Dean of Students, the Director for Academic Success Center & Disability Services and the Assistant Vice President for Residential Learning and Inclusion Programs, as well as other managers responsible for disability services and student housing, shall implement and ensure compliance with this policy.

III. APPLICABILITY

This policy is applicable to individuals requiring the use of a Service Animal. In addition, this policy is applicable to all undergraduate and graduate students occupying housing facilities owned or leased and operated by the University, as well as student housing provided by third parties, affiliated with the University (collectively, "University housing"), requiring the use of an Emotional Support Animal.

IV. DEFINITIONS

1. "Service Animal" is a dog that has been individually trained to do work or perform tasks for the benefit of an individual with a disability (this will include a physical, sensory, psychiatric, intellectual, or other mental disability). In some cases, a miniature horse may be permitted as a Service Animal; however, other species of animals, whether wild or domestic, trained or untrained, are not Service Animals. The work or tasks performed by a Service Animal must be directly related to the Owner's disability.
2. "Emotional Support Animal" is an animal that can be kept lawfully and is required by a student with a disability as a reasonable accommodation to afford them an equal opportunity to use and enjoy University housing. Such a requirement must be documented by an appropriate healthcare or mental health professional, and approved by Academic Success Center & Disability Services. Unlike a Service

Animal, an Emotional Support Animal does not assist a person with a disability with activities of daily living, nor does it accompany a person with a disability at all times.

3. "Owner" is an individual with a disability who owns a Service Animal or an Emotional Support Animal.
4. "Residential Owner" is an individual student who owns a Service Animal or Emotional Support Animal and lives in University housing.
5. "Non-residential Owner" is an individual who owns a Service Animal and does not live in University housing.
6. "Trainee" is a Service Animal in training, including puppies in training once they are old enough to remain under the control of the Trainer. The Service Animal in training (Trainee) must be accompanied by a person who is training the animal (Trainer) and the animal must wear a leash, harness, or cape that identifies the animal as a Service Animal in training. Trainees are not permitted to reside in University housing. See the Responsibilities/Requirements sections of this policy.
7. "RLUH" is the Department of Residential Learning and University Housing.

VI. POLICY

1. Employees

Employee requests for disability accommodations, including requests to have a Service Animal at work, are handled through the appropriate disability accommodation policy and procedures. Employees can view these policies at <https://sites.rowan.edu/equity/index.html>, and may contact the Office of Employee Equity and Labor Relations at (856) 256-5494 for information and assistance.

2. Service Animals

A Service Animal is permitted to accompany its Owner at all times and in all places on campus except where animals are specifically prohibited because of health and safety restrictions (see Exclusions below).

Residential Owners are required to register their Service Animal with the Academic Success Center & Disability Services. Non-residential Owners are not required to register their Service Animal; however, it is highly recommended that Non-residential Owners, who are also students, register with the Academic Success Center & Disability Services.

Links to the registration and verification forms can be found below, under Registration Process.

3. Emotional Support Animals

Determining whether an Emotional Support Animal is permitted in University housing is made on an individual basis, through an interactive process between the student requesting the accommodation and relevant campus personnel. The student's needs will be balanced with the impact of an animal on other campus residents.

In order for an Emotional Support Animal to be considered a reasonable accommodation in University housing, the individual must register with the Academic Success Center & Disability Resources by providing current verification of their need for an Emotional Support Animal from a physician, psychiatrist, licensed clinical social worker, or licensed psychologist which:

- a. verifies that the student has a disability;

- b. describes the need for the Emotional Support Animal to enable the student an equal opportunity to use and enjoy University housing; and
- c. identifies the relationship between the disability and the assistance the Emotional Support Animal provides.

Links to the registration and medical verification forms can be found below, under Registration Process. Absent extenuating circumstances, the request for an Emotional Support Animal must be made no less than 30 days prior to the date to move into University housing.

All requests for Emotional Support Animals in University housing are subject to annual review.

If the Owner and the Emergency Contact are unreachable, the University reserves the right to remove (or have emergency personnel remove) the animal from the Owner's University housing, to an appropriate location (i.e., shelter), at the Owner's expense.

13. **Violations**
